

REPORT ON FIELD VISIT TO JALANNAGAR SOUTH TEA ESTATE

On 1st November 2023, FYUGP 1st students of the Department of Botany from DHSK College, accompanied by Assistant Professor Rajib Lochan Borah, went on an educational excursion to Jalannagar South Tea Estate, in the heart of Dibrugarh district. This field trip aimed to provide students with a firsthand experience of the tea cultivation process, understand the cultural significance of tea plantations and delve into the historical aspects of Jalannagar South Tea Estate.

Upon arriving at the estate, students were introduced to the various processes involved in the production of Tea. The estate's knowledgeable guides led students through each stage of the tea cultivation process. From plucking the tender tea leaves to the intricate steps involved in processing and packaging, students gained insights into the tea production process.

Beyond the agricultural aspect, students explored the cultural significance of tea in the region. They conversed with local workers, learning about their daily routines and the tea estate's integral role in sustaining the community. The visit fostered a sense of appreciation for the hard work and dedication of those involved in the tea industry, shedding light on the socio-economic dynamics of the region.

Jalannagar South Tea Estate boasts a rich history, and students had the opportunity to explore the estate's colonial-era buildings and artefacts. The estate's museum showcased the evolution of tea cultivation in the region, highlighting its impact on the local economy and the historical context of the tea industry.

To enhance the educational experience, students participated in hands-on activities such as tea leaf plucking and tea blending sessions. These interactive sessions deepened their understanding of the tea-making process and provided them with practical skills they could apply in their daily lives.

The visit to Jalannagar South Tea Estate proved to be an immersive and enlightening experience for the FYUGP 1st semester students of the Department of Botany, DHSK College. It not only expanded their knowledge of the tea industry but also fostered an appreciation for the cultural and historical dimensions associated with tea cultivation. The trip served as a reminder of the importance of sustainable agriculture and its profound impact on local communities.
